

COVID-19 Patients Needed!

Currently seeking individuals confirmed positive for COVID-19, who would like to volunteer to donate a small amount of blood from a finger prick which can be done yourself at home.

This blood sample will help develop a new test for COVID-19.

REQUIREMENTS TO BE A VOLUNTEER

- ✓ Must be at least 18 years of age
- ✓ Must be confirmed positive for COVID-19 by standard PCR test (done on a nasal/throat swab).

To learn more, please speak with a member of our staff:

David Boyle, Kephera Administrator
Kephera Diagnostics
1 Grant street, Suite 300
Framingham, MA, 01702

Phone: 774-421-9611

Email : volunteer@kephera.com

Kephera Diagnostics is developing a blood test that will determine whether a person has been exposed to the SARS-CoV-2 virus by detecting antibodies to the virus in a blood sample. Kephera Diagnostics is seeking volunteers that are confirmed positive for COVID-19 to develop this new test.

- A blood collection kit will be sent to you.
- You will collect 4-6 drops of blood from a finger prick using instructions provided.
- You will send back the collected blood in a pre-paid container.

You will not be paid for your blood, but your participation will help develop urgently needed tests for COVID-19
